Dear Alumni and Friends:

Five years ago, I was given the honor and privilege of being named dean of one of the finest nursing schools in the world: the Frances Payne Bolton School of Nursing at Case Western Reserve University. My charge then—and now—is to steer the school and the entire FPB family through the dynamic environments of higher education and health care while charting new paths for FPB and the nursing profession.

As I begin my next five-year appointment as dean, I would like to spend a few minutes reviewing some of the accomplishments of our journey to date. The focus of that work has been driven by the goals outlined in the School’s Strategic Plan 2013-2017 (See Appendix 1).

Below is a brief overview of our goals, our achievements, and opportunities for continued growth as the school enters its final year of the existing strategic plan and begins formulating the next. Many of these successes are applicable in multiple goals.

**Goal #1: Improve the quality of the student experience**

The student experience begins from the moment prospective students engage with the school, whether we reach out to them or them to us. To achieve this goal, we examined how to improve student recruitment, especially in an era of limited financial aid and increased competition from online programs, while looking at our student experience once enrolled through graduation.

**Accomplishments**

- Reorganized the Office of Recruitment
- Established an online applications process
- Improved tracking of applicants
- Created new recruitment marketing strategies including the use of national firms and social media
- Created the Legacy Fellows program to recruit future nurse scientists to our PhD program
- Pursued new financial aid opportunities and partnerships to support incoming students with gifts from the Toulmin Foundation and the Helene Fuld Trust as well as private donors
- Reviewed the entire recruitment process to improve the overall experience for prospective students, faculty and staff
- Created new course requirements to provide better exposure to the rigors of licensing exams
- Rewrote the Student Handbook to provide additional clarity on policies and procedures.
- Promoted 2 underrepresented minority faculty to leadership positions

**Results**

- Created larger, more competitive applicant pools and entering classes for the Graduate Nursing Entry MN and PhD programs
- Maintained a balanced budget over the past five years
- Increased the first-time pass rates for the NCLEX pre-licensure test to 95%, well above the national average
- Achieved accreditation for all degree programs for the first time in the school’s history

**Ongoing Opportunities**

- Continue to improve student overall satisfaction
- Enhance the student experience from enrollment through graduation
- Continue to increase enrollment of highly qualified students in all programs
- Enhance the diversity of the student population across all programs

**Goal #2: Enhance the research infrastructure to increase the depth and breadth of the school’s research enterprise**

As part of a major private research university, it is essential to FPB’s mission that it produces new knowledge to improve the health and wellbeing of all members of society. Our task was to increase our productivity in nationally recognized research.

**Accomplishments**

- Increase pre- and post-award support to faculty with the addition of an assistant dean for research, assistant dean for research administration, a statistician, and a post-award accounting specialist to assistance with grant generation and research management
- Realigned research to NIH and other national funding priorities
  - Symptom Science
  - Family/Community Care
  - Aging Across the Lifespan
  - Self-management of Health and Illness
  - Neuroscience
- Created new collaborations in and outside the school
Results

- Highest amount of annual NIH support in school’s history with $4.1 million
- Named as host institution for the Midwest Nursing Research Conference in Spring 2018
- Currently fund nine post-doctoral fellows including five from under-represented minorities

Ongoing Opportunities

- Increase successful competition for research scholars and dollars
- Expand submission of clinical, instruction and research grants
- Continue educational programming to enhance grant writing skills among faculty
- Increased research opportunities through partnerships with other schools, especially non-ranked schools at CWRU and beyond

Goal #3: Enhance the school’s national and international reputation as a top-tiered nursing school

FPB is revered as one of the world’s top nursing schools. It is essential that its reputation is further enhanced in an era of increased competition for students, new faculty, research dollars and financial resources.

Accomplishments

- Increased advertising and marketing of school’s achievements
- Redesignation as a Pan-American World Health/World Health Organization (PAHO/WHO) Collaborating Center for Research and Clinical Training in Home Care Nursing
- Encouraged faculty recognition by esteemed academies and society fellows

Results

- Ranked #5 by US News and World Report’s Best Grad Schools in its first rankings of DNP programs
- Ranked #8 by US News and World Report for MSN programs
- Numerous individual faculty recognition including:
  - Two faculty inducted in the Sigma Theta Tau International Nurse Researcher Hall of Fame
  - Two faculty named American Academy of Nursing (AAN) Living Legends
  - Six faculty named AAN Fellows
  - Two faculty named Gerontological Society of Nursing Fellows
  - Three faculty named American Association of Nurse Practitioners Fellows
  - Four faculty named National League of Nursing’s Academy of Nursing Education Fellows
  - One faculty named an American College of Nurse-Midwives Fellow
  - One faculty named an Association of Professionals in Infection Control and Epidemiology Fellow
  - Countless awards and elected offices within their professional organizations
• Surpassed the School of Nursing’s $35 million Campaign Goal
• Reached record fundraising year with $6,015,793 in annual support from FPB family and friends

Ongoing Opportunities

• Maintain *US News and World Report* rankings as criteria continues to evolve
• Increase support for scholarships, programs and other initiatives

**Goal #4: Become an incubator for innovation**

FPB has been at the forefront of education and leadership since its inception. In a highly competitive environment it must continue and expand this tradition of excellence.

**Accomplishments**

• Established the nation’s first moveable critical-care transport helicopter simulator for flight nursing
• Created the first Alumni Standardized Patient Program
• Developed the Collaborative Home for Oral Health, Medical Review and Health Promotion (CHOMP): A wellness clinic featuring dental and nursing students
• Created STAT Camp: a popular continuing education preparatory course for statistics
• Developed FPB/OAAPN Online CE Course
• Implemented a new mandatory six-week BSN perioperative experience
• Created a MSN track in Education
• Joined Nursing Education Xchange (NEXus)
• Developed a Quality and Safety MOOC: Take the Lead on Health Care Quality Improvement
• Helped establish the Student Run Free Clinic

**Results**

• Earned the AACN Innovations in Professional Education Award (Academic Health Center) to the Quality and Safety Education for Nurses (QSEN) Institute
• Received AACN Innovations in Baccalaureate Population Health Curriculum Award for our work with the Cleveland Metropolitan School District
• Established innovative collaborations in Engineering & Nursing; Medicine & Nursing; Dental Medicine & Nursing; Nursing & Air Force and in Interprofessional Education
Ongoing Opportunities

- Integrate the school’s culture of innovation in its new home at the Health Education Campus
- Enhance innovations in educational programming
- Continue to support creative Interprofessional Education (IPE) programming
- Continue to support faculty and staff development associated with technology-enhanced learning

Goal #5: Create a positive and supportive work environment that fosters communication, collaboration, and team functioning

The work of the school cannot be accomplished without the effort of our faculty and staff. They are the common thread throughout the FPB’s outstanding reputation as a leader in nursing education, research, clinical practice. They are the creative force of FPB. It is of the utmost important that FPB be a place where the faculty and staff feel they are valued and respected.

Accomplishments

- Instituted new internal communication program
- Established Office of Faculty Development & Office of Staff Development
- Created an updated system for teaching assignments
- Designed a monthly seminar series on enhanced teaching strategies
- Offered leadership courses through the Weatherhead School of Management
- Held a summer Creative Learning Institute for faculty

Results

- Created the first all-school retreats, annual State of the School address, monthly Dean’s Briefing, daily Media Board postings, annual Preceptor thank you event
- Established a structured orientation system for faculty and staff
- Standardized the ARPT review process
- Named four non-tenured and tenured track faculty to endowed chairs
- Supported the promotion of 14 tenured and non tenured-track faculty
Ongoing Opportunities

- Enhance the diversity of the faculty especially among instructors and preceptors.
- Continue to improve orientation and onboarding of faculty, staff and preceptors
- Expand support for Educational, Leadership and Research Training opportunities for faculty and staff
- Develop ongoing educational and open conversations with faculty and staff
- Continue strategic hires of faculty and staff

Since this letter highlights the school’s many achievements during my tenure as dean, it seems only appropriate that the cover of this annual report features our faculty and staff. These accomplishments are only possible through their hard work and persistence. It has been an honor and pleasure to serve them as dean and I look forward to the next five years.

Sincerely,

Mary E. Kerr

Mary E. Kerr, PhD, RN, FAAN
Dean and the May L. Wykle Endowed Professor

Executive Summary

A total of 788 students were enrolled for the Fall 2016 semester, which includes an increase in the Graduate Entry, MSN and PhD programs -- which works to meet our Strategic Plan Goal to increase enrollment of the best-prepared students from diverse backgrounds in all programs. Enrollment in the BSN and DNP programs continues to experience challenges in a dynamic marketplace.

FPB Enrollment Trends: Fall 2007 to Fall 2016

Number of Students (N = 788)
Student Diversity

Approximately 27.2% of our entire student body self-report represents a minority, with 7% unreported. It is above the national average of 26.5%.

By program, our student diversity stands at 34.2% for the BSN program compared to a 26.9% national average; 13.9% for MSN v. 26.6%; 18.3% for DNP v. 22%; and 15% for PhD v. 24.7%.

In addition, 14.3% of our overall student body are male. Our BSN program is 8% male v. the 11.4% national average, while our MSN program is 22% male v. the 9.9% national average.
Support for Students

Legacy Fellows Program
- Currently there are 18 Legacy Fellows
- Of the 18 Fellows, five are currently supported through NIH funding
- Fellows receive full tuition support and education stipends and gain experience as a member of an active research team

Toulmin Foundation
- The first cohort of Neonatal Nurse Practitioner students in three years began classes in fall 2016 with support from the Virginia B. Toulmin Foundation
- Additional support was provided by partnering with University Hospitals

Helene Fuld Foundation for scholarships
- Three BSN students received support in the 2015-16 academic year from the Helene Fuld Health Trust BSN Scholarship Fund, established in 2006
- Ten MN students were named Fuld Scholars, an increase from four the previous year. The provides support for scholarship

Nurse Anesthetist Traineeship Program
- $34,731 in grants for nurse anesthesia graduate students
Health Education Campus Groundbreaking

- Case Western Reserve University and the Cleveland Clinic broke ground October 1, 2015 on the four-story, 485,000-square-foot Health Education Campus (HEC) that its leaders vowed would reimagine the preparation of health care leaders.
- More than 350 people attended a groundbreaking on the site.
- The new school is expected to improve the quality of the student experience, which aligns with FPB’s Strategic Plan Goal 1.

Accreditation

- Received accreditation from Commission on Collegiate Nursing Education (CCNE) for the BSN, MN, MSN, DNP and Post-master’s Programs

Process Triage

- Started examining our recruitment process and student experience
- Involved faculty, staff and students in the process mapping
U.S. News and World Report released new rankings for graduate-level health care education programs in March 2016. To fit with the school’s Strategic Plan Goal 3, the school enhanced FPB’s national and international recognition as a top-tiered nursing school, by increasing its rankings.

NIH-supported Research

FPB is ranked 14th in the nation among Schools of Nursing for its total NIH funding, up from #22 the previous year.

Specialty Rankings

#9 Nurse Practitioner: Adult / Gerontology, Acute Care
#15 Nurse Midwifery
Executive Summary

For calendar year 2015, faculty, postdoctoral fellows and students from the School of Nursing received 37 honors and awards from regional, national, and community organizations and the University (30 for faculty, one for a postdoctoral fellow and six for students).

The school was well represented at the 2016 annual conference of the Midwest Nursing Research Society. Two faculty members received prestigious society-wide awards and six faculty received awards from the Society’s Research Interest Groups. For a full list of Honors and Awards, go to Appendix I.

Meaningful work in the community and regionally earned three faculty members recognition from state and local organizations, including the Ohio March of Dimes. Active on the CWRU campus, four FPB faculty earned University-wide recognition, including the John S. Diekhoff Mentoring Award and the Mary Kay Lehman Award for Excellence in Teaching. An FPB graduate student was awarded both the Cleveland Magazine and Greater Cleveland Nurses Association “Faces of Care – Next Generation of Care” award and the 2015 Marie Haug Award.

Research Funding; In $ Million

* includes ARRA support
Research, continued

The School of Nursing’s research and training revenue provides new collaborative opportunities with other schools on the Case Western Reserve University campus that have health care research revenue. Notable new grants in FY 2016 to the School of Nursing are listed below.

Future Directions

To continue its legacy of excellence in nursing research as a top 10 nursing school by US News and World Report, the Frances Payne Bolton School of Nursing is focused on several key goals:

- Continue to develop our five focus areas of research: Symptom science, Self-management of health and illness, Family/community care, Aging across the lifespan, Neuroscience
- Expand our research portfolio to include more foundation and industry research
- Increase our collaborative research with clinical and campus-wide partners
- Nurture early-stage investigators
- Involve all levels of students in research
- Provide more education for faculty and staff regarding research issues
- Develop an “Idea Incubator” to spur creative, new research
Centers of Excellence

PAHO/WHO Collaborating Center for Research and Clinical Training in Home Care Nursing

The focus of the PAHO/WHO Collaborating Center at CWRU is home care nursing—the delivery of health care services in the home setting. Change in all parts of the world, from aging of the population, the increase in chronic diseases, and the development of infectious diseases, places a burden on the existing health care systems. Home care nursing is one solution to the problem.

Key Accomplishments

- Developed a four module mini-course on self-management for persons with multiple chronic conditions, focused on nurses working in the community. This is in the process of being peer- and expert-reviewed and will be made available on the Pan American Health Organization website: Virtual Campus
- Conducted workshops and lectures at Aichi Medical University, Japan focused on home health care

Sarah Cole Hirsh Institute for Best Nursing Practices Based on Evidence

The Hirsh Institute creates and disseminates evidence-based information to enhance nursing practice.

Key Accomplishments

- Development of the Summer Training Certificate Program
- Collaboration with the QSEN Institute & the University Center on Aging and Health & community partners
- Provided funding support for an international graduate student

University Center on Aging and Health (UCAH)

UCAH’s interdisciplinary mission is to foster collaboration among its community of scholars, learners, and practitioners in order to encourage and coordinate innovative interdisciplinary research, education, and service programs relevant to the health and well-being of older adults.

Key Accomplishments

- Awarded $50,000 grant from McGregor Foundation to support interprofessional faculty development (dental medicine, medicine, nursing, nutrition) for “Enhanced Professional and Interprofessional Competencies for Geriatric Care”
- Received the Clark Tibbits Award from the Association for Gerontology in Higher Education
- Two graduate students from diverse disciplines completed the 12 credit graduate certificate program in gerontology; four are continuing the certificate program into Fall 2017
- Three graduate students received the Marie Haug Scholarship Award at the Graduate School’s Award ceremony
- Exhibited at the November 2015 Gerontological Society of America annual meeting
Centers of Excellence, continued

Center of Excellence for Self-Management Advancement through Research and Translation (SMART)
The SMART Center is a National Institute of Nursing Research/National Institute of Health-funded Center of Excellence to build the Science of Self-Management (P30 NR010676). It is designed to address self-management research at four levels of system: individual, family, organization, and community.

Key Accomplishments
- Identified Common Data Elements that are being used across seven pilot studies
- Developed the first fMRI scanning task to assess brain activity associated with emotional and analytic task switching in people self-managing chronic illnesses
- Presented a workshop at the 2016 MNRS meeting

Dorothy Ebersbach Academic Center for Flight Nursing
Serves as part of the MSN program’s Adult-Gerontology Acute Care Nurse Practitioner Flight Nursing subspecialty. It is the first formal training program of its kind to prepare nurses at the advanced practice level to provide care to individuals outside of hospitals, but at a hospital level of care.

Key Accomplishments
- Participants of Flight Nursing Summer Camp FY2016 gathered from across the United States. This year’s disaster drill was on the Case Western Reserve campus Farm, as well as at the Flight Helicopter Simulator
- Hosted 20 journalists from the Association of Health Journalists Conference, held in April 2016
- Assisted Redbird Simulations with production of a webcast to promote flight nursing

Quality and Safety Education for Nurses (QSEN) Institute
Initially funded by the Robert Wood Johnson Foundation, the QSEN Institute’s goal is to address the challenge of preparing future nurses with the knowledge, skills, and attitudes (KSA) necessary to continuously improve the quality and safety of the healthcare systems in which they work.

Key Accomplishments
- Funding secured from the Lauretta and Richard Peters Foundation, the Gordon and Betty Moore Foundation, as well as Marianne Barba
- Massive Open Online Course (MOOC), “Take the Lead on Quality Improvement,” received the Duncan Neuhauser Award for Curricular Innovation (2nd Place). Academy for Healthcare Improvement, 2015
- Received the Innovations in Professional Nursing Education Award from the American Colleges of Nursing for the Academic Medical Center category, 2015
- Collaborating with programs from the University Center for Aging and Health & the Hirsh Institute
- Nine publications and 10 presentations
- Coordinated 7th National QSEN Forum on May 26-28 2016 entitled “Pioneering New Frontiers for Quality and Safety.” The program was focused on innovations in curricular design and teaching strategies that accomplish QSEN competency development and research related to quality and safety education in pre-licensure, advanced practice education, and clinical practice
- Coordinated a Pre-conference session at the American Nurses Association Quality conference
Executive Summary

Frances Payne Bolton School of Nursing has secured 100 percent of its original $35 million goal for the University’s Forward Thinking Campaign. The funds will be used to build the new HEC, support student scholarships, expand vital programming, attract and retain nurse scientists and researchers, and allow Dean Kerr to meet the day-to-day operating expenses of the School of Nursing. Based on our strong fundraising performance, Dean Kerr presented her priorities for the remainder of the Forward Thinking Campaign to the University Campaign Committee and asked that our goal be increased to $45 million.

This year saw another year of significant growth in the Annual Fund with the fund attaining more than $394,248 in unrestricted support or 107 percent of our cash goal (110 percent cash/pledges combined). FPB had a record-setting year of attainment with more than $6 million raised in 2016 — the highest attainment in the school’s history.

Executive Summary
Total revenues at the Frances Payne Bolton School of Nursing are $27,434,000. With expenses at $27,462,000, the school utilized $28,000 from its reserves.

Revenue
- 68.3% tuition and fees
- 12.3% research and training grants
- 13.4% endowments
- 3.7% overhead recovery
- 2.4% gifts and grants

Expenses
- 28.4% faculty salaries
- 23.9% university support
- 11.4% other salaries
- 12.0% fringe benefits
- 12.3% other expenses
- 12.0% student aid and salaries

Faculty Highlights

- Amy Bieda, PhD, assistant professor, received the Navigator Award from the National Association of Neonatal Nurses
- Margaret Bobonich, DNP, assistant professor, received the Book of the Year award from the *American Journal of Nursing*
- Michael J. Decker, PhD, associate professor, received the 2016 Mary Kay Lehman Award for Excellence in Teaching from Case Western Reserve University
- Peg DiMarco, PhD, associate professor, became a fellow of the American Academy of Nursing
- Mary Dolansky, PhD, associate professor, became a fellow of the American Academy of Nursing
- Evelyn G. Duffy, DNP, associate professor, became a Member of the John A. Hartford Foundation Change AGEnts Initiative Policy Institute
- Joyce Fitzpatrick, PhD, professor, was named a Living Legend by the American Academy of Nursing
- Faye Gary, PhD, professor, received Congressional Recognition, Unsung Heroes from U.S. Member of Congress, the Honorable Marcia L. Fudge; Community Partner of the Year Award from East Cleveland City School District and Unsung Heroes Award from North Coast Nurses Coalition
- Ronald Hickman, PhD, associate professor, received the John S. Diekhoff Mentoring Award from Case Western Reserve University
- Rebecca Patton, MSN, instructor, received the Honorary Recognition Award from the American Nurses Association
- Carol L. Savrin, DNP, associate professor, became Treasurer of the National Association of Pediatric Nurse Practitioners
- Carolyn Harmon Still, PhD, assistant research associate, was named Nurse Researcher of the Year by the National Black Nurses Association, Inc.
## Faculty and Staff Changes

### New Faculty through Summer 2016

Appendix I
Strategic Plan 2013-2017: Abridged

Mission
The Frances Payne Bolton School of Nursing at Case Western Reserve University provides leadership in innovative research, education, and practice to promote health and reduce the burden of disease. Dedicated to interdisciplinary scholarship, we are committed to the pursuit of excellence in service to local and global communities.

Vision
Our vision is to create and nurture a learning environment that builds on our tradition of scientific inquiry and commitment to the highest standards of excellence in research, education, and practice in the world community, and to continue our rich history of innovation and global contributions.

Values Statement
At the Frances Payne Bolton School of Nursing we:

- Advance competent, compassionate healthcare practice to achieve positive healthcare outcomes.
- Commit ourselves to the highest standards of ethical and social justice.
- Value integrity, diversity, and discovery.
- Promote analytical and innovative thinking.
- Promote leadership and mentorship with consistency of purpose and innovation.
- Create synergy through collaboration, mutual respect, and support.
- Promote leadership in research, education, and practice.
- Promote interprofessional collaboration and scholarship.
- Incorporate an international perspective into research, teaching, and practice.
- Value our relationship with the Northeast Ohio community.

Our strategic plan represents our vision for the future and the direction we will take over the next 5 years. The research and education we provide are driven by a commitment to:

- Prepare high quality nurses and leaders that improve health across the globe
- Lead in scientific discoveries that improve health care.
- Design and implement innovations in nursing education.
- Establish a physical and technological environment that enhances learning, discoveries, and educational experiences.
Goals and Strategies

This strategic plan includes five overall goals: (1) improve the quality of the student experience, (2) enhance the research infrastructure, (3) enhance national and international recognition, (4) become an incubator of entrepreneurial and innovative initiatives, and (5) create a positive and supportive work environment that fosters communication, collaboration, and team functioning.

Goal 1: Improve the quality of the student experience

The Frances Payne Bolton School of Nursing (FPB) recognizes that the shortage of nurses in the United States is in part due to a shortage of doctorally prepared faculty. The academic quality of our students, combined with outstanding faculty and a variety of quality clinical experiences within Cleveland, Ohio, across the nation and around the world, will ultimately provide students with the skills necessary to adapt to changing and varied healthcare challenges. This will increase the number of FPB graduates prepared for leadership roles in practice, education, and research.

This effort requires a change in approach to educating a vibrant and diverse student population, encouraging creativity and international partnerships. Specific strategies to accomplish this goal are to:

- Facilitate development of innovative curricula that minimizes overlap of course credits and streamlines progress from one degree to another.
- Elevate the skills, competence, and expectations of students through accountability, motivation, self-direction and life-long learning.
- Increase student satisfaction across all programs and departments at FPB.
- Demonstrate to students that they are the #1 priority at FPB through timely responsiveness and feedback on their work, inviting their input and ideas, and respecting and valuing their needs.
- Increase enrollment of the best-prepared students from diverse backgrounds across all programs.
- Create a welcoming environment that reflects the FPB history, culture, and future of the nursing profession, and that is consistent with our nationally ranked peers to enhance our recruitment efforts of both faculty and students.
- Maintain high standards and excellence in education by providing assessment, evaluation and support of students to meet individual career goals.
Goal 2: Enhance the research infrastructure to increase depth and breadth of the school’s research enterprise.

FPB recognizes the importance of nursing research to build the scientific foundation for clinical practice and for the larger disciplines of nursing and healthcare. Contributions from nursing science aid in solving some of the nation’s most important health challenges. FPB believes that expanding our research efforts will increase these contributions. Specific strategies to accomplish this goal are to:

- Further develop our research infrastructure to enhance all types of research engagement (federal, non-federal, foundation and industry).
- Expand our research expertise in the Science of Health to incorporate new and innovative approaches (genetics, imaging and technology).
- Design incentives for collaboration between clinical practice and research, within and across disciplines, departments and institutions.
- Enhance research and learning through a state-of-the-art environment that incorporates the need for flexibility, reflection, and interactive engagement.
- Develop and initiate fundraising/capital campaign strategies that support the educational and research enhancements.
Goal 3: Enhance FPB’s national and international recognition as a top-tiered nursing school

At FPB, we currently have an excellent national reputation that facilitates the recruitment of high-quality students and faculty. FPB recognizes the future movement of today’s nursing discipline into one that requires more advanced practice nurses and doctorally prepared educators and scientists. Maintaining and improving our national ranking in our clinical specialties and research will allow us to expand into new and innovative educational and research arenas. Specific strategies to accomplish this goal are to:

- Provide opportunities to promote health or solve complex health problems through local, national, and international advocacy and policy.
- Increase the ranking of our clinical specialty programs in *U.S. News & World Report*.
- Support the value of continuous learning through leveraging of technological advances and experiential learning opportunities.
- Increase and sustain our first-time NCLEX pass rate and clinical certification examinations at a minimum of 95%.
- Expand branding strategy for faculty, staff, and students to promote FPB through their daily activities.
Goal 4: Become an incubator for innovation

FPB recognizes that as a school we have a long history of innovation laying claim to the “firsts” of many significant programs in education, models of healthcare delivery and clinical research. It is important to stimulate and support the development of creative educational, professional, and scientific ideals. We believe that advancing nursing technologies and forming new academic focus areas can make the difference between novice and expert nursing professionals. Specific strategies to accomplish this goal are to:

- Develop an “incubation program” that supports entrepreneurial activities or creative experiments that incentivizes “high risk” creative ideas that have the potential to enhance health, develop innovative curricula, or implement learning strategies (e.g. Massive open online courses (MOOCs) and other online education tools).

- Conduct “think tanks” and targeted brainstorming sessions to generate creative, innovative ideas and proposals.

- Establish new collaborations across faculty, staff, students, and alumni, other schools within the university, and other stakeholders for the creation of innovative academic and research programs.

- Recruit and retain high-quality faculty from diverse backgrounds that promote and enhance innovative research, teaching, and practice.
Goal 5: Create a positive and supportive work environment that fosters communication, collaboration, and team functioning.

A positive and enjoyable work environment is important not only for physical and psychological health, but is necessary for a highly effective and efficient organization that fosters a creative and collaborative culture both within and beyond the school. We also recognize there should be a balance between stress and productivity within the work environment. Specific strategies to accomplish this goal are to:

- Foster innovation and learning through an inclusive and supportive environment that promotes teamwork and fosters creativity, energy and productivity. This will occur by designating a Head of Faculty Development and Head of Staff Development. These positions will assist faculty and staff across their career trajectory through orientation and mentorship programs, designate mentors, initiate individualized faculty and staff development plans incorporating personal areas of strength and design programs.

- Develop excellence in clinical practice through the identification of “best practice models” for integration of academic and clinical roles and increased use of clinical and joint appointments between academic and clinical faculty.

- Develop organizational structure that empowers and supports faculty in administrative, educational, and scientific decision-making and that clearly links expectations, faculty career development, and evaluation in the context of a balanced work and personal life.

- Engage faculty and staff to implement a shared vision and include them as members and partners within the “FPB team” through systematic communication, such as monthly communications, periodic staff meetings, and an annual State of the School address and joint faculty/staff meeting.

- Enhance communication within and between the schools at the university through regular meetings with the Deans, Associate Deans and faculty from the other schools.

- Foster a philanthropic environment involving faculty, staff, students, alumni, and friends of the school through increased communication about scholarships, research funds, and other demonstrable effects of philanthropic support on the daily operations of the school.
Appendix II
Faculty Publications, continued

Elizabeth R. Click, ND, RN, CLE, CWP
Assistant Professor

Barbara J. Daly, PhD, RN, FAAN
The Gertrude Perkins Oliva Professor in Oncology Nursing

Elizabeth G. Damato, PhD, RN, CPNP
Associate Professor

Faculty Publications, January 1 - December 31, 2015

Celeste M. Alfes, DNP, MSN, RN
Associate Professor; Director of the Learning Resource Center

Theresa A. Backman, DNP, RN, LCDC III, PMHNP-BC, CHTS-CP
Instructor; Major, U.S. Army Reserves

Melody A. Betts, DNP, CRNA
Instructor

Margaret A. Bobonich, DNP, FNP-C, DCNP, FAANP
Assistant Professor

Christopher J. Burant, PhD, MACTM
Assistant Professor
